

ESI

ELITE SOLAR INTEGRATION

About Elite Solar Integration

ESI, The PV Solar System Installation and Project Management Company

Elite Solar Integration (ESI) specializes in the complete assembly and installation of Commercial/Industrial Rooftop & Ground Mounted Solar Arrays.

ESI employs only “in-house” boots on the ground, who are professionally trained to perform the customer required scope of work. We own the equipment used on each project and we employ only the best Project Management professionals.

Our experienced team of professional installation technicians ensures a complete PV Solar System installation, delivered on time to meet the needs of PV Project Developers and Commercial/Industrial building owners.

ESI’s resources ensure quick mobilization & scalability, which drives the project schedule while maintaining the quality our customers expect.

Think of ESI as the “C” in EPC.

Team Expertise

- The ESI team has over 35 years of combined onsite Construction, Commercial Roofing and Project Management experience
- ESI is an approved/certified installer of all Tier 1 PV Racking Manufacturers
- ESI is an approved/certified installer of the leading commercial Roofing Manufacturers, so we can install PV Racking Attachments and perform any remediation required by the PV installation
- ESI provides optimal field construction by completely understanding the PV integration process and working closely with the Project Developer's Design Engineers to verify relevant solutions to suit existing facility conditions
- ESI is an industry leader in Roof Mounted PV Solar installation for both private and public sector facilities

The Value of a Capable Partner

- Roof Top Solar System Installation Services
- Electrical & BOS Installation
- PV Construction Management and Consulting
- BOS Component Optimization Support
- Existing facility Roof Surveys to determine optimum PV compatibility
- Commercial Roofing Manufacturer Certified
- General Contracting Expertise
- Payment & Performance Bond Capability

ESI Management Team Bios

Rich Milanese, President & COO

Rich is responsible for business development activities, driving all strategic marketing and sales endeavors. Before launching Elite Solar Integration, Rich served in various executive leadership positions for tier 1 companies within the project development, distribution and EPC side of the solar industry. During that time, he provided expert consultation to building owners, developers, solar integrators and EPC contractors for the integration of PV solar to their facilities as well as financial sourcing capabilities. Rich hold a Class A General Contractors License and Roofing Contractors License. He is a graduate of the University of Miami with a BBA in Business Management and Finance.

Stephen Termotto, Sr. Project Manager

Steve is responsible for Project Management, Quality Assurance and Quality Control in our New Jersey office. Steve has over 10 years' experience as a Solar Installation Technician and Operations & Maintenance Engineer. He has been responsible for optimizing the performance of over 50MW of solar spread over 140 commercial-scale projects, including procurement, repairs, permitting and design/implementation of post-commissioning procedures. Steve holds a Bachelor of Science in Business Administration from Rowan University in Glassboro, NJ.
